At its 53rd edition, held from 17 to 23 June 2019, the Paris Air Show confirmed once again its status as the world’s largest aerospace event.

Undeniable showcase for the aeronautics and telecommunications industry and its actors, the Paris Air Show once again encountered a real success and welcomed a record number of Exhibitors with more than 2,450 companies present. A place ideal for opportunities and meetings, it was as ever an extraordinary platform for trade, with over $140 billions’ worth of orders placed.

Professionals in the sector and the general public came in droves, with 316,000 Visitors and 2,700 journalists attending during the week. They discovered numerous areas and events, including the Careers Plane and the Paris Air Lab, a space devoted to research, innovation and forward thinking.

Visitors could also admire the 140 aircraft on Show, 36 of which on flying displays. Lastly, the event consolidated its international dimension, with over 300 Official Delegations present, and visits from France’s President and the great majority of the French government.

For its 53rd edition, the Paris Air Show has once again demonstrated that it is a milestone in the economic life of its industry.
KEY FIGURES

THE EXHIBITION

An even higher number of Exhibitors:

- 2,453 Exhibitors from 49 countries
- 150 start-ups from 21 countries

An edition sold out more than 6 months before opening with

- 125,000 sqm of exhibition space including:
  - 52,000 sqm of stands
  - 335 chalets representing 35,000 sqm of outdoor areas
  - 38,000 sqm of constructed and bare outdoor areas
- 140 aircraft presented

THE VISITORS

- 316,470 VISITORS
- 139,840 Trade Visitors
- 176,630 General Public Visitors

As attractive as ever for delegations:

- 304 Official Delegations from 98 countries visited the Show

An exceptional media coverage:

- 2,700 accredited journalists from 87 countries

An ever-growing volume of orders:

- 140 billion dollars’ worth of contracts signed

2019 SHOW REPORT

**AN ENTHUSIASTIC GENERAL PUBLIC**

The general public acclaimed this edition enthusiastically, with 177 000 Visitors in the last three days. The quality of the flying display (Patrouille de France, Rafale...) and the numerous events, including the Careers Plane and the Paris Air Lab, once again delighted a very broad audience.
This year, 140 aircraft were presented during the week including 36 in flight presentation. Among them, new products and aircraft that have left their mark on history: the Airbus A330 NEO, the Boeing B789-9 and KC46, the Bombardier Global 7500, the Kodiak 100 from Daher, the Rafale and Falcon 8X from Dassault, the Praetor d’Embraer, Textron with the Quote Latitude, the Alpha Electro Pipistrel presented by DGAC, Russian Helicopters and its Ansat, Turkish Aerospace with the Atak T129 and the two commemoration of the 75th anniversary of the landing on C47 THAT’ALL BROTHER and the C53 D-DAY DOLL!

THE AIRCRAFT

AN INTERNATIONAL SHOW

With 2453 Exhibitors from 49 countries, the Paris Air Show has consolidated its status as the world’s leading aerospace show. International Exhibitors represented more than 50% of the numbers, and came mainly from the following countries:

- USA: 360
- Germany: 141
- Italy: 141
- UK: 103
- Belgium: 83

A REMARKABLE VENUE FOR OPPORTUNITIES AND TRADING

140 Billion dollars’ worth of contracts signed during the Show

FOCUS

This year, digital technology once again gave Exhibitors maximum visibility.

- 465 new products and services were presented by Exhibitors during this edition, and could be viewed on the Show’s digital platforms.

BREAKDOWN BY ACTIVITY

- Services: 27%
- Subcontracting (mechanical, engineering and composite materials, aircraft interiors, etc.): 20%
- Production equipment, tools and software: 12%
- Composite materials and surface treatment: 10%
- Aircraft: construction, assembly and sub-assemblies: 9%
- Educational institutions, associations: 4%
- Pilot & navaids: 3%
- Aircraft engines, aerospace powerplant and related equipment: 3%
- Space, spacecraft, satellites and telecommunications: 3%
- Maintenance, product support & spares, transport: 3%
- Airborne equipment and systems (including weapons): 3%
- Airport equipment and services: 2%
- Cabin interiors: 1%
The show was inaugurated on Monday 17 June by the French President, Emmanuel Macron. Prime Minister Edouard Philippe came to the Show on Friday 21 June, when it opened to the general public. Nine French Ministers and Secretaries of State and numerous key figures in French politics also made visits.

The 304 official delegations from 98 countries and 7 international organisations present at the Show included:

- 171 official defence delegations from 88 countries and 7 organisations – AED, GCC, G5 Sahel, NATO, UN, EU, OCCAR –, including 16 foreign ministers, 48 chiefs of staff and 18 vice-ministers or secretaries of State;
- 124 civilian and institutional delegations with 9 ministers;
- 19 other delegations.
PARIS AIR LAB

After the success of its first edition in 2017, the Paris Air Lab has returned stronger than ever. This “event in the event” allowed cross innovations between large groups and start-ups, conferences-debate, keynotes, immersive experiences or even new animations...

This year again, the Paris Air Lab opened its doors and allowed us to discover the challenges of tomorrow: climate change, artificial intelligence, mobility of the future....

- An exhibition dedicated to innovation for aerospace, structured in 4 zones (Enable, Protect, Travel and Explore), and shared between major groups, large agencies and start-ups.

- Outstanding guests with daily prospective round tables, Battle confs and keynotes. Scientists, astronauts, navigators and experts from various backgrounds came to share their knowledge and ideas throughout the week.

- Daily sessions of talks on innovation, opened by the sector’s leading CTOs (Airbus, Boeing, Thales), which then focused on over 100 start-ups and their pitches.

- 7 VR (virtual reality) facilities.

54 000 Visitors

140 start-ups

including 70 “Paris Air Lab 2019 Selection” hosted on stands in Hall 2

11 conferences (round tables and “Battle conf”)
An immersive and educational journey of discovery of 15 professions in aeronautical design, production and maintenance presented by about a hundred professionals in the sector.

Conferences on professions, jobs and training courses animated by the Exhibitors.

A space dedicated to employment and training to exchange with the companies in the aerospace industry, air transport and of the National Defence who recruit and educational institutions in the air transport sector (with programmes) ranging from CAP to engineering diplomas and pilot training.

Many small and medium-sized businesses and equipment manufacturers located in Hall 2B have decided this year to open their stands to students and people looking for work.

THE CAREERS PLANE

In a hall of nearly 3,000 m², the Careers Plane offered a new overview of the sector and allowed both young people and their parents to question their orientation, students to look for an internship or an apprenticeship, young graduates to find their first job and experienced professionals to identify new opportunities.”

66 000 visitors
15 trades presented
70 companies and training schools
22 000 job opportunities
5 000 work-study contracts
8 000 internship opportunities
AEROSPACE MEETINGS PARIS

On the strength of previous successes, the Show once more staged its “Aerospace Meetings Paris” in partnership with BCI Aerospace. This service, combined with Speed Networking, is aimed at all Exhibitor companies (SMEs/major groups) and Trade Visitors. The Aerospace Meetings provide an opportunity for in-depth exchanges with the purchasing, technical and production teams and the various subcontractors present. Through a programme of conferences and round tables, including “Cybersecurity: a major challenge for the Supply Chain” presented by major principals, Visitors also had the unique opportunity to learn about and exchange views on the purchasing policies of major groups.

ROCKETRY CHALLENGE

On Friday 21 June, the international final of the Rocketry Challenge took place in the centre of the Show. This competition for young amateurs aged 12 to 18 consists of sending up three raw egg in a rocket, which must still be unbroken on landing. This year four teams were competing from France, the United Kingdom, the United States and Japan. The final was won by the British (awards ceremony in the presence of Al Worden from the Apollo 15 mission and Claudie Haigneré).

SKYTRAX WORLD AIRLINES AWARDS

The Skytrax prize-giving third ceremony took place on Tuesday 18 June at the Paris Air Show in the Air and Space Museum, with an audience of 250 guests. Qatar Airways airline has been awarded the title of "best airline in the world", ahead of Singapore Airlines and All Nippon Airways (ANA).
AN INNOVATIVE CSR APPROACH

The first trade show to obtain ISO 20 121 certification in 2013, the Paris Air Show has an ambitious CSR policy, and has introduced a range of actions designed to boost health, safety and reception quality for the event’s various stakeholders. Numerous schemes also helped to reduce the environmental impact.

Among the new concrete actions implemented this year:

- a partnership has been concluded with “Le Chaînon Manquant” to recover unsold food for the benefit of the most deprived
- most of the park is now lit with LED bulbs
- a sorting of the plastic film was done at the end of the Show.

MUSIC IN THE AIR

On the occasion of the celebration of music in France and for the first time this year, Friday 21 June was the occasion to celebrate music on the Show. No less than 8 groups punctuated the visitors’ arrival. Between classical music, jazz, rock and Brazilian music, this new animation has created a real moment of relaxation and conviviality.

A CONSTANTLY-DEVELOPING ACCESSIBILITY POLICY

For the last few editions, the Show has been pulling out all the stops to receive disabled visitors in comfortable conditions through dedicated means, including priority access at the entrances, suitable restaurants, snacks and toilets, trained and sensitive reception staff, and the provision of electric vehicles if needed.

THE NEW MASCOT ALEO

This year, the Show presented you its mascot Aleo. He accompanied young and old during their visit to the show. On the weekend, he welcomed the children in “La Maison d’Aleo” in order to make them discover the history of aeronautics and space, in a simple and fun way.

INITIATIVES
This year, the Show reinforced its digital strategy and its communication devices. In addition to the website, mobile application and social networks, the Show also launched a Chatbot and a Social Wall.

**SIAE WEBSITE**

- 1.3 million page views

**MOBILE APP**

As a genuinely helpful tool for visiting, it allowed to consult the list of Exhibitors, their new products and events, the flying display schedule and interactive maps of the Show. The app also had an exclusive function: indoor geolocation.

- 46 000 downloads
  + 25% vs 2017

**SOCIAL MEDIA**

( subscribers as of 25/06/19)

Many live events as well as the daily posting of photos and videos (exclusive interviews, in-flight presentations) contributed to the craze on social networks. The speeches at the Paris Air Lab were also broadcast live.

- 46 963 subscribers
  +53% vs 2017
- 6 930 subscribers
  New in 2019
- 10 500 subscribers
  +84% vs 2017
- 2 million impressions
- 28 200 subscribers
  +55% vs 2017
- 11 285 subscribers
  +35% vs 2017
- 500 000 videos viewed
- 46 000 downloads
  + 25% vs 2017

**CHATBOT**

A Chatbot has been launched on the official website to help Internet users solve a problem or find the most appropriate service.

- 91 200 people have used the Chatbot
  On average 3 messages are exchanged at each session

**SOCIAL WALL**

A Social Wall has also been created with no less than 10 Totems screens spread throughout the park during the Show, regularly broadcasting the posts published on social networks about the Show, with the following hashtags:

#ParisAirShow, #SalonDuBourget, #PAS19, #ParisAirLab, #AvionDesMetiers

- 32 000 posts were published in total
  +18 million people were affected
To optimise time spent at the Show, an efficient transport network was available to visitors and Exhibitors: specific shuttles to the site from the RER train station and Charles de Gaulle airport, golf cars for hire (for Exhibitors) and little trains serving the main areas of the Show.

10,000 people used the shuttles during the Trade Days

3,000 people during the General Public Days

Nearly 200,000 people used the shuttles to reach the Show.

The ELITE Pro privilege programme, offering exceptional advantages and services (fast-track admission, a private lounge available in the heart of the Show, etc.), was again a great success this year. Over 1,400 people made use of the service.

Exhibitors at the Show were provided with a free, top-quality concierge service, with a team of concierges dedicated to them for making booking and organise visits and trips: a way of ensuring an unforgettable experience of the Air Show and their stay in Paris.

To guarantee our visitors and Exhibitors the highest possible level of safety, the Paris Air Show has maintained the systems in operation at the entrances and within the site. While guaranteeing visitors’ security, the Show succeeded in providing impeccable reception, with no congestion at the entrances and service points (free left luggage, etc.).

With more than 40 catering points spread throughout the site, the Show offered a wide variety of dishes to suit all tastes. Restaurants with table service, snacks and food trucks made it possible to satisfy Visitors and Exhibitors.

This new service available to Exhibitors meant that they could book in restaurants managed by our partner Standbuy and buy vouchers in advance to eat in total peace of mind during the Show.
A heartfelt thank-you from the entire Paris Air Show team for your participation in this 53rd edition.

You can sign up for the next edition from March 2020.

We look forward to seeing you at the next Paris Air Show, FROM 21 TO 27 JUNE 2021!
